Mr. Hens discussed a water situation that happened over the weekend. 85-90 degree weather a lot of heat, dry conditions throughout the summer. Due to the heat and no water, water production is down. – City stopped using creek water on Saturday. 100% off well between wells A,B,C using 2.5 million, this is 2 million short of what the plant was demanding. Lived off tanks most of Saturday. Erie topped off all their tanks Saturday so that Genesee can use their source on Sunday. Sunday the County did use Erie tanks. Many phone calls and texts over the weekend with City, Town, Monroe County and Erie County. Erie County source turned on pulling 600,000 gallons – as Sunday proceeded the creek water cleared and was able to start using the creek water again. City tanks went from 24 feet elevation Saturday morning to 11 feet on Saturday afternoon. There was a lot of nervousness. Still stressing to the public not to use water for gardening, yards, car washes, etc.
